

MAXIMIZE YOUR EMPLOYEES' ABILITIES

alliance work partners
A WWP Program 

EMPLOYEE ASSISTANCE PROGRAM

When workplace issues arise, your Employee Assistance Program (EAP) provides options and solutions. In addition to being here for employees, your EAP has resources for worksite trauma, disaster relief, problem employees, professional development and managerial consultation.

As your full service EAP, Alliance Work Partners is ready to help your organization define the situation, provide resources, and support the employees. Contact your Account Manager for a confidential review of the resources you have at your fingertips.

PERSONAL & PROFESSIONAL DEVELOPMENT

Good employees seek opportunities to improve their skill set. To help retain your most valuable asset, we offer a broad catalog of courses for employees to improve their skills.

MANAGERIAL CONSULTATION

From downsizing, change or reorganization, we can help with the message and implementation of the plan.

PROCEDURAL REFERRALS

If you have an employee that is not meeting workplace expectations, a Procedural Referral is a great resource. Instituting a work performance plan is a delicate topic and your EAP can organize your effort to save a valued employee.

CRITICAL INCIDENT STRESS RESPONSE (CISR)

Between workplace accidents, employee deaths and violence, employees need a confidential and safe outlet. Your EAP can conduct a debriefing on-site to address the situation so employees can move forward.
